Experienced mechanical engineering professional with nearly 10 years in the mining industry, holding a National Diploma in Mechanical Engineering and certification in Project Management. Skilled in managing engineering service providers and collaborating with diverse OEMs to deliver operational excellence. Proven track record of initiating and leading cost-saving initiatives that achieved measurable financial benefits. Adept at overseeing complex projects, optimizing resources, and driving continuous improvement in mining operations. Recognized for strong leadership, analytical abilities, and innovative problem-solving that consistently support business growth and efficiency.

PERSONAL INFORMATION

Date of birth	1991-August-12
Gender	Male
Citizenship	South African
Driver's License	Code C1

EDUCATION

Advanced Diploma Project Management (NQF 7)
National Diploma in Mechanical Engineering (NQF 6) CPUT
National Senior Certificate (NQF 4) Baitiredi Tech and Comm High School
GCC – In Progress

KNOWLEGE, SKILLS AND COMPETENCIES

Planning & Organizing – Strong ability to structure tasks, set priorities, and manage projects effectively.

Team Collaboration – Proven team player with a cooperative approach to achieving shared goals.

Communication Skills – Clear, confident, and professional in both written and verbal communication.

Problem-Solving & Decision-Making – Skilled at analysing challenges, identifying solutions, and making sound decisions.

Business Insight – Strong understanding of organizational dynamics and market trends.

Resource Management – Efficient in allocating and optimizing resources to maximize productivity.

Analytical Abilities – Adept at interpreting data, spotting patterns, and drawing actionable conclusions.

Innovation – Creative thinker with the ability to generate new ideas and approaches.

Legal Knowledge – Familiarity with legal frameworks and compliance of MHSA

WORK EXPERIENCE

ANGLO AMERICAN KUMBA IRON ORE SISHEN

SECTION ENGINEERING MANAGER: (Place holder)

Contractors & Plant Outside Services (RRT, Conveyors, Rigging & LMI)

Duration: 01 November 2023 – 06 August 2024

I am responsible for the management of the following sections:

- Plant Rigging maintenance section
- Plant maintenance Rapid Response Team section (Shifts)
- Conveyor Belt Section
- Lifting Machinery Inspection section – Plant and mining
- Easy Access (Man Lifting machines) – Plant and mining
- Contractor Management – Responsible for legal compliance of all service providers that are rendering service to Plant Engineering.

My responsibilities included:

- Work execution and performance management (RWM).
- Review Work order planning and input.
- Review daily output, schedule and task compliance.
- Report on previous days performance and outstanding risks and urgent work.
- Review previous KPI (Safety Inc. & Acc, output compliance, services compliance, schedule compliance).
- Ensure All instructions regarding services, quality, environmental and safety documented in the preplanning.
- Do Monthly comparison between measured and schedule compliance and identify any actions required for continues improvement
- Maintain good Stakeholders' relations
- Equipment reliability and performance management.
- Budget and Cost Management.
- Ensure compliance with the provisions of the MHSA.
- Legal compliance to MHSA and Sishen's standards and procedures.
- SHE Management.
 - Responsible for the functions of an Engineer in terms of 2.13.6.1 of the Minerals Regulations.

- Observe and enforce any code of practice, instruction, procedure, directive, permission, exemption etc. issued by the mine.
- Identify and assess any hazards and apply the effective controls to mitigate the risk.
- Responsible for the discipline of all subordinates.
- Enforce compliance to standard and procedures by conducting Plan Task Observations (PTO).
- Provide proper health and safety training.
- Report any contravention in terms of the MHSA.
- Ensure that high risk work is identified, and critical controls are verified.
- Provide employees and service providers within my area of responsibility with any information, instruction, training, or supervision that is necessary to enable them to perform their work safely and without any risk to health and safety.
- Provide and maintain an environment that is safe and without risk to the health and safety of employees within my area of responsibility.

SECTION ENGINEERING MANAGER: (Acting)

Support and outside services mine wide

Duration: 01 December 2021 till 01 November 2022

I am responsible for the day-to-day management of the following sections:

- Civil Maintenance A – Maintenance of all building infrastructure, including 2500 housing units.
- Civil Maintenance B – Maintenance of all roads (excluding pit area) and cleaning of storm water channels.
- Crane Maintenance – Maintenance of all overhead cranes, mobile cranes and forklifts.
- Vehicle Maintenance A & B – Maintenance of all Light Vehicles.
- Mechanical Service – Maintenance of water and sewer infrastructure, and Fuel Depos.
- TMM Inspection – Compliance inspection of all TMM entering the mine.
- Contractor Management – Responsible for legal compliance of all service providers that are rendering service to all the support departments (HR, BI, Finance, Supply Chain, Safety, Protection Service, Environmental).

My responsibilities included:

- High risk work verification and critical control monitoring.
- Legal compliance to MHSA and Sishen's standards and procedures.
- SHE Management.
- Work execution and performance management (RWM).
- Equipment reliability and performance management.
- Management of the section's budget.
- Ensure compliance with the provisions of the MHSA.
- Responsible for the functions of an Engineer in terms of 2.13.6.1 of the Minerals Regulations.
- Observe and enforce any code of practice, instruction, procedure, directive, permission, exemption etc. issued by the mine.
- Identify and assess any hazards and apply the effective controls to mitigate the risk.
- Responsible for the discipline of all subordinates.
- Enforce compliance to standard and procedures by conducting Plan Task Observations (PTO).
- Provide proper health and safety training.
- Report any contravention in terms of the MHSA.
- Ensure that high risk work is identified, and critical controls are verified.
- Provide employees and service providers within my area of responsibility with any information, instruction, training, or supervision that is necessary to enable them to perform their work safely and without any risk to health and safety.
- Provide and maintain an environment that is safe and without risk to the health and safety of employees within my area of responsibility.

Anglo American Kumba Iron Ore Sishen

RELIABILITY ENGINEER
November 2023

01 November 2022 - 01

- Plant Reliability performance reporting
- Life Cycle Costing and Maintenance Costs
- Asset Tactics
- Defect Elimination
- Failure Investigation and Analysis
- RCA
- Reliability improvement Business cases and Projects

- RBI rollout (Implementation and next steps)
- Compliance management
- Reliability engineering practices
- Risk Management
- Maintenance effectiveness review
- Capital expansion analysis
- Project implementation and analysis
- Process optimization and training
- Develop and review company strategy and policies
- Work Management
- Monitoring and evaluation
- Planning and Budgeting

MECHANICAL ENGINEERING TECHNICIAN
November 2023

02 December 2016 to 01

- Plant Maintenance
 - Fixed plant Hydraulic systems
 - Load out stations Hydraulic system
 - Primary, secondary and Tertiary crushers hydraulic systems
- Implementation of Operational and Capex Projects.
- Initiating Improvements Project
- Lazer Alignment (Plant and mining)
 - Drive units' alignment (over hanging and normal base)
 - Gyratory Crusher Countershaft alignment
 - Cone Crusher shaft alignment
 - Shovel Bucket drive Alignment (horizontal hanging and normal to base)
- Data collection for Investigation
- Defect Elimination
- performing Fault Finding on Mechanical Systems
- Artisan Coaching.
- Performing Standby
- Condition Monitoring
- Assisting Reliability Engineers with RCA
- Supporting GES With Technical Expertise
